

Michael E. Angelina, ACAS, MAA, CERA

Executive Director

Maguire Academy of Insurance and Risk Management

Erivan K. Haub School of Business

Saint Joseph's University

Michael E. Angelina currently serves as the executive director of the Maguire Academy of Insurance and Risk Management within the Erivan K. Haub School of Business of Saint Joseph's University, where he leads the undergraduate RMI program. He is a qualified actuary, and an insurance professional with over 30 years of experience in consulting, executive leadership, and directorship roles. He serves on the board of directors of specialty insurer, RLI Corp. and Bermuda-based reinsurer, Equator Re. He is the Chairman of the Board for classic car specialist, Hagerty Insurance Group. In 2013, he was named as one of Insurance Business America's Hot 100 Insurance Professionals because of his research on the topic of gender diversity in the insurance industry.

Mr. Angelina was an executive officer with a Bermuda-based insurer, where he led the global pricing, reserving, and risk functions with a particular emphasis on Enterprise Risk Management. During his tenure as Chief Risk Officer, Endurance was one of four North American insurers to receive Standard & Poor's highest rating of excellent for Enterprise Risk Management. He also led the Casualty Practice Council of the American Academy of Actuaries from October 2012 to October 2014, and in November of 2014, he was elected to serve a three year term as a member of the American Academy of Actuaries Board of Directors.

He is a co-author of Tillinghast's industry-wide asbestos actuarial study released in 2001 and participated in the development of the 2003 FAIR Act (proposed industry-wide Federal asbestos legislation). Mr. Angelina has also spent time meeting with members of congress and their staff on asbestos issues, the National Flood Insurance Program, Terrorism, and other insurance issues. As the leader of the American Academy of Actuaries' Casualty Practice Council, Mr. Angelina has issued many comment letters to state, national, and global regulators on property casualty insurance issues including capital standards, catastrophe requirements, financial reporting, loss reserves, ratemaking, and qualification standards for actuaries.

Mike's overall impact to the Delaware Valley Risk Management community has been profound. Since being named Executive Director of the Maguire Academy on April 1, 2012, the program has risen to greater and greater heights and has received Top 4 national status three times in the past 4 years. In addition, Mike is heavily involved in local industry and charitable functions.

But the true measure of Mike's lasting contribution to the industry lies in the dozens of Risk Management professionals that he's helped develop over much of the past decade. In an industry that has challenges developing new talent, Mike is helping to place bright young contributors into key roles on a regular basis.
